# Partner Pack – Ukraine Supports

Communications Unit  
September 2022

Dear Partners,

Since March, over 47,000 people from Ukraine having arrived here over 7,000 students are now enrolled in our schools.

Thank you for your continued support and willingness to assist.

As the new schools year is underway, we are focussing on making sure all families who arrived in recent weeks or who arrive from now on know how to and why they should access the education system in Ireland. We want to ensure this process is easy and inclusive.

In addition, for families that are changing accommodation, we aim to support them as they settle into a school in their new locality.

Please feel free to share the assets in this partner pack to help ensure wide dissemination of the information. We are keeping with the style of other communications outputs for government on this topic so it is recognisable and continues to signpost to [gov.ie/Ukraine](https://gov.ie/Ukraine) , where people can find a wide range of information they need, in Ukrainian, Russian and English.

Thank you again for your continued support. If you have any questions or ideas, please contact [communications@education.gov.ie](mailto:communications@education.gov.ie)

## Videos

Editing is underway on videos filmed with students and parents who have arrived to Ireland from Ukraine and have enrolled in school.

These short videos focus on the student and parent's direct experience of the Irish system, what a school day is like, what support they have been given and share personal advice to new students and families.

Links to these will be shared shortly, and this partner pack updated.

You can find the first video from Millstreet Community School [here](#).
